| Stage 5 -Topic Programme of Study Objectives | Comment |
| :---: | :---: |
| Measurement - Length, Mass, Capacity, Temperature |  |
| Convert between different units of measure ( mm to $\mathrm{cm}, \mathrm{cm}$ to $\mathrm{m}, \mathrm{m}$ to km and vice versa) |  |
| Understand and use approximate equivalences between metric units and common imperial units (inches, feet, yards and miles) |  |
| Measure and calculate the perimeter of composite rectilinear shapes in cm and m |  |
| Calculate and compare the area of rectangles (squares) and including using standard units, square cm and square meters and estimate the area of irregular shapes |  |
| Convert between different units of measure ( g to kg and kg to g) |  |
| Understand and use approximate equivalences between metric units and common imperial units (ounces, stone and pounds) |  |
| Convert between different units of measure ( ml to I and vice versa) |  |
| Understand and use approximate equivalences between metric units and common imperial units (pint, gallons and fluid ounces) |  |
| Estimate volume using $\mathrm{cm}^{3}$ blocks to build cuboids/and capacity (e.g. using water) |  |
| Count forwards and backwards with positive and negative temperatures through $0^{\circ} \mathrm{C}$ |  |
| Measurement - Time |  |
| Solve problems involving converting between units of time |  |
| Measurement - Money |  |
| Solve multi step worded problems involving money using some or all of the four operations |  |
| Geometry - Shape |  |
| Identify 3D shapes, including cubes and other cuboids, from 2D representations (e.g. nets) |  |
| Use the properties of rectangles to deduce related facts and find missing lengths and angles |  |
| Distinguish between regular and irregular polygons based on reasoning about equal sides and angles |  |
| Geometry - Co-ordinates / Translation |  |
| Identify, describe and represent the position of a shape following a reflection or translation using the appropriate language and know that the shape has not changed |  |
| Geometry - Angles |  |
| Know that angles are measured in degrees |  |
| Estimate and compare acute, obtuse and reflex angles |  |
| Draw a given angle and measure them in degrees |  |
| Identify that angles at a point, and one whole turn, total 360 |  |

| Identify that angles at a point on a straight line, and half a turn, total $180^{\circ}$ |  |
| :--- | :--- |
| Identify other multiples of $90^{\circ}$ (e.g. $180^{\circ}, 270^{\circ}$ and $360^{\circ}$ ) |  |
| Statistics |  |
| Complete, read and interpret information in tables (including timetables) |  |
| Solve comparison, sum and difference problems using information <br> presented in a line graph |  |
